

**FOR IMMEDIATE RELEASE****ORR PARTNERS COMPLETES ST. ALBANS SCHOOL  
ATHLETIC FACILITY IMPROVEMENT PROJECT**

**Reston, VA (November 1, 2015)** — Orr Partners is pleased to announce the recent completion of the athletic field and facilities renovation and expansion project for St. Albans School. This expansion provides the school's athletes with improved facilities and additional access to practice fields. The field access for practice will double as a result of this project, and with the construction of a six-lane regulation track, St. Albans will be able to host track meets for the first time in over 30 years.

The improvements completed include:

- Multi-sport turf field with 600 seats for spectators
- Six-lane regulation track
- Three practice fields
- Regulation baseball field and seating for 150 spectators
- Seven tennis courts
- Tennis pavilion with locker rooms
- Athletic storage space and concession stand

"The location and visibility of this project created a lot of challenges," commented Scott Siegel, President of Orr Partners. "The St. Albans staff and design team showed tremendous dedication and the team worked tirelessly to deliver a landmark project." The completed project gives St. Albans state-of-the-art practice and game facilities for multiple sports.

Orr also managed the relocation of the Beauvoir pool and locker room facilities to accommodate the new stadium seating. Programs and camps requiring use of the pool were held as scheduled as all pool construction was completed during the fall and winter months. "A project like this on an active campus required significant planning and coordination," stated Matt Armstrong, Senior Project Manager for Orr Partners. "We were thrilled to be able to deliver the project in time for all of the fall sporting events."

## PRESS RELEASE

### ABOUT ST. ALBANS

Through its academic program, St. Albans School strives to give each student in grades four through twelve a firm grasp of fundamental skills; to develop in each student the ability to think critically, creatively, and independently; and to foster in each an appreciation for the diversity of human experience. St. Albans encourages its students to pursue their special academic talents in the hope that knowledge, diligently sought and acquired, will lead to wisdom that will serve both the individual and others. Each student's intellectual development should prepare him not only for college but also for life. For more information on St. Albans please visit [stalbansschool.org](http://stalbansschool.org).
